OFFICE OF THE DIRECTOR

Dear Shorthorn Breeders:

Welcome Shorthorn Breeders to Ohio and the Ohio National Show and Sale.

We Ohioans are proud to be a part of this Show and Sale; Shorthorn Breeders contributed much to both the economy of the State as well as each consumer. Only through the efforts of breeders can consumers continue to maintain high quality diets at reasonable prices.

The consignment of cattle at this Show and Sale reflect the outstanding contributions Shorthorn Breeders are making to Americans. On behalf of all Ohioans, I wish you visitors a most pleasant stay in Ohio.

Sincerely

John M. Stackhouse

MILL BROOK LILAC LADY 73 - A daughter of Kinnaber Leader 6th and out of Lilac Lady 115th, a great breeding Haumont cow. This heifer was shown only once. She stood third in class at the National Western in January. Her stall-mate was second and the Reserve Grand Champion of the show won the class. She was bred January 5 to the \$10,000 Denver sale bull, and Grand Champion at every major show last fall, Mill Brook Ransom G9.

WHY BUY SHORTHORNS?

- ★ Shorthorn bulls are active, sure breeders.
- ★ They put more growth into their calf crops.
- ★ Shorthorns are historically known for their faster gaining and finishing ability. The demand for Shorthorn and Shorthorn crossbred feeders far exceeds existing supplies. Consequently, they sell for a premium.
- ★ Shorthorn bulls put more milking ability into their daughters . . . this means heavier weaning weights.
- ★ Shorthorn docility is world famous, making them ideal projects for youngsters.
- ★ Shorthorns eliminate the cancer eye, sunburned and snowburned udder problems.
- ★ Shorthorns are known as "THE GREAT IMPROVERS," Shorthorn crosses have been proven in test after test to be superior to other crossbreds in milking ability, rate of gain and feed efficiency.
- ★ Ask yourself why so many commercial herds are now crossbreeding with Shorthorns? IT'S BECAUSE THEY ARE BEST IN EVERY WEIGH.
